

# Earth to Sky Workshop

South Central Region

Join us for three days of training with native informal educators from across the South Central Region who recognize the importance of teaching climate change. This workshop will be packed with exciting topics and fun activities for you to bring back to your community, including;

- NASA Arctic & Earth Signs Training
- NASA Living Landscape Project
- Shar-A-Thon of Youth Activities
- Field Trip to Chickasaw National Recreation Area

Participants are encouraged to register with teams of relevant collaboration. (Ex. Tribal Environment and Education Staff) You will work with these teams to develop plans to implement these trainings in your tribe!

## When & Where

July 20-22, 2022

Chickasaw Retreat and Conference Center  
4205 Goddard Youth Camp Road  
Sulphur, OK 73086

Travel Support is available!

SOUTH CENTRAL  
CLIMATE ADAPTATION SCIENCE CENTER

Earth to Sky (ETS) is a partnership between NASA, NPS, and USFWS that enables and encourages informal educators to access and use relevant NASA science, data, and educational & outreach products in their work. The partnership's focus is on climate change science and communication.
